

Worm Wise

by Jude Southee

Part 1 Number 2 2002

RYL 4

REMEMBERING

- | | |
|---|---|
| 1 | Name three things that worms eat. |
| 2 | Why are the worms always at the bottom of the pile? |

UNDERSTANDING

- | | |
|---|--|
| 3 | Explain in your own words how you can get the worms to move out of the castings. |
| 4 | Why are castings useful? |

APPLYING

- | | |
|---|--|
| 5 | Create a poem about a worm. You could make a diamond poem or an acrostic poem. |
|---|--|

ANALYSING

- | | |
|---|--|
| 6 | Read the story on page 22-23 carefully, and draw your own cutaway diagram of a finished worm farm. Label the different layers. |
|---|--|

EVALUATING

- | | |
|---|---|
| 7 | Do you think having a worm farm at home is a good idea? Why or why not? |
|---|---|

CREATING

- | | |
|---|--|
| 8 | Collect three ice cream containers with lids and create the worm farm as described on pages 22-23 of this journal. Ask your teacher for the additional tools you will need, or talk to an adult at home to create it after school. |
|---|--|
